

WorldFleetLog

WorldFleetLog - Overview

- ▶ WorldFleetLog is a cloud-based tracking and monitoring solution that provides real time vehicle status and driver behavior data.
- ▶ WFL features hundreds of ad hoc and automatically generated reports based on user-defined parameters
- ▶ All E-Drive Technology hardware products are managed through WorldFleetLog

WorldFleetLog 3rd-party Integration

- ▶ The WorldFleetLog platform supports a continuously growing list global hardware manufacturers, including:

- Teltonika
- Navtelecom
- Queclink
- Ruptela
- Galileosky
- Jimi IoT
- BCE
- ArusNavi
- Suntech
- CalAmp
- Topin GT01 - a well adapted solution to track laptop computers
- ST-901 – specially designed for motorcycles

WorldFleetLog - IoT

EDT SmartSense RF IoT devices and dedicated FMS products are fully integrated with WorldFleetLog to provide detailed and summarized sensor activity reports as well as to display real-time sensor states. The following IoT devices are supported:

- ▶ Analog temperature/humidity sensors
- ▶ Digital sensors - to track open door/close door, valves, or any other binary action
- ▶ RF ID tags to identify multiple trailers in the field

Alert Notifications

The screenshot displays a vehicle tracking application. At the top, a map shows the location of a vehicle (RTMX03 ROJO) in Naucalpan. A popup window provides details about the vehicle and driver. A dialog box asks if the user wants to select and focus on this device. Below the map, a table lists recent events for the vehicle.

Vehicle Information:

- Vehicle: RTMX03 ROJO
- Driver: Luis Manuel Sanchez
- Time: 26/01 23:12:35
- Event: Idle time end

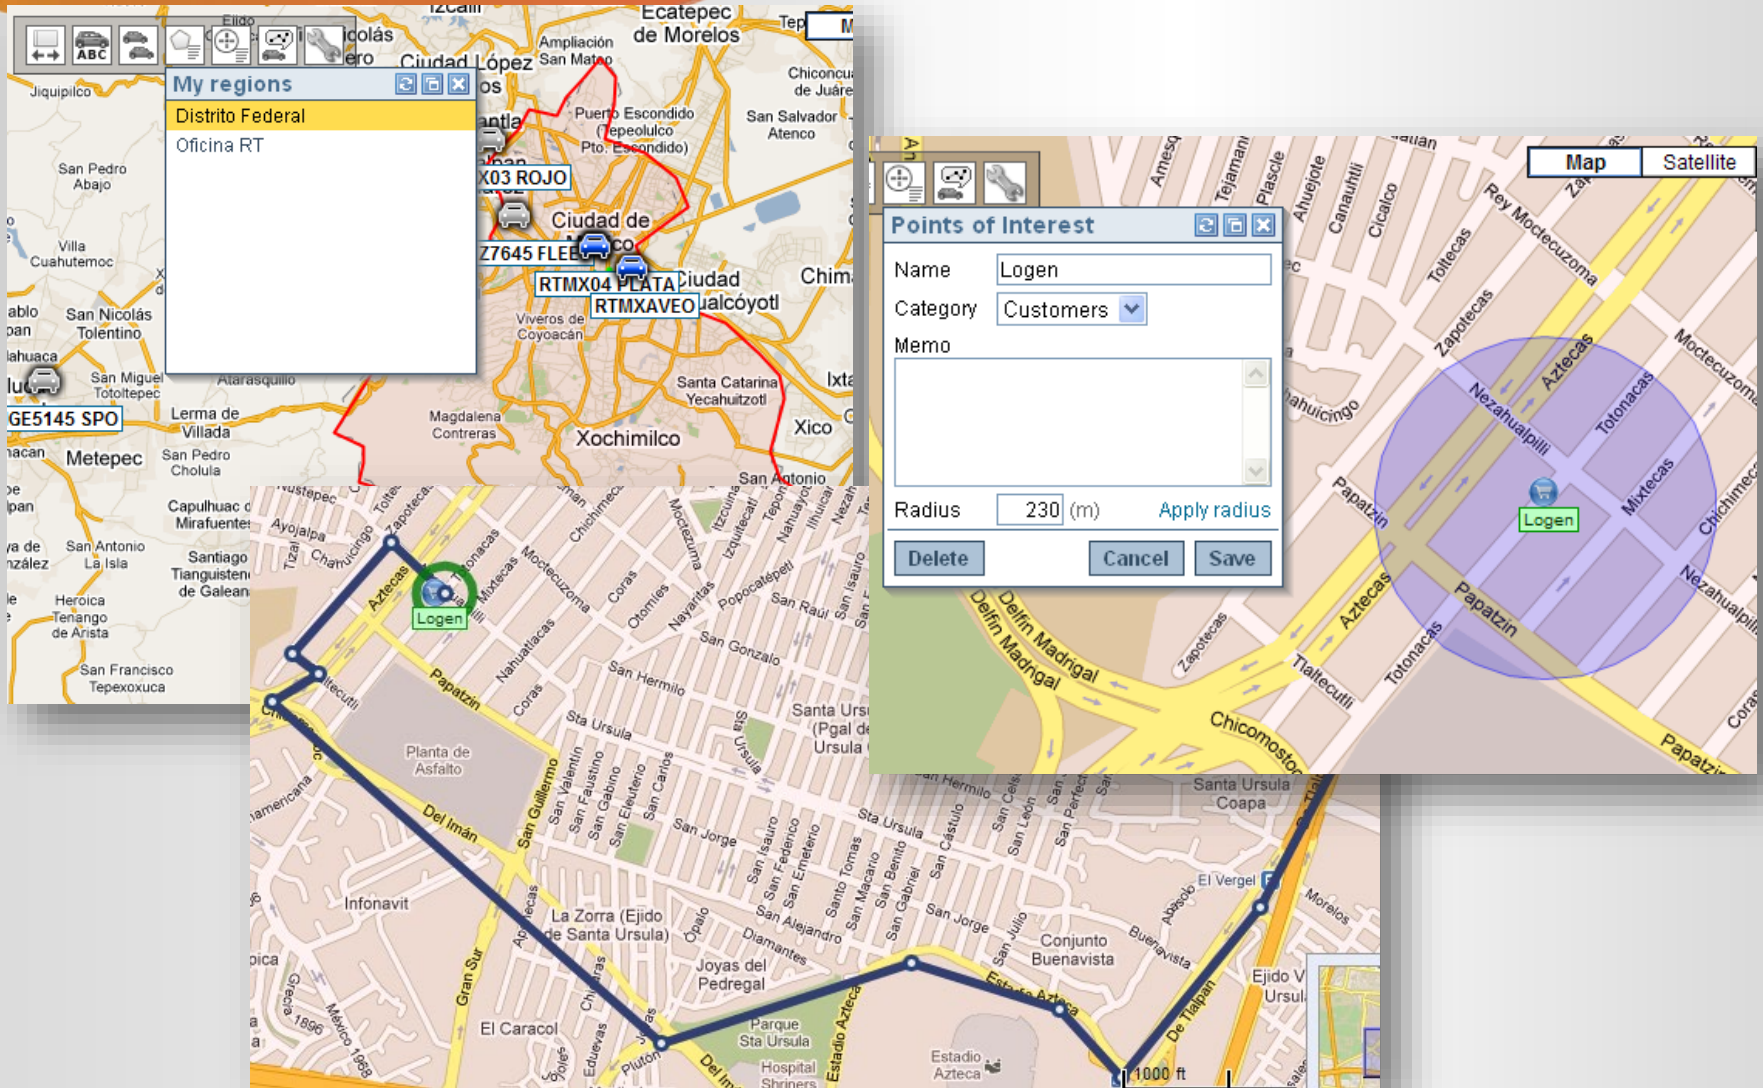

Device Selection Dialog:

- Nickname: 555
- Device ID: 555
- Event: Emergency
- Time: 30/01/2011 08:29:04
- Would you like to select and focus on this device?
- Buttons: Yes, No

Log Table:

Vehicle Service & Maintenance Module

WorldFleetLog Service module features include:

- Apply user-defined service type to each service interaction
- Create spare parts catalog based on user-defined fields for each part including brand, model and year. The spare parts catalog also supports internal and external part numbers along with P/N and price.
- User-defined reminders for scheduled maintenance, insurance renewal, yearly inspection, and more are automatically delivered to user-defined recipient lists.
- Automatically generated reports include Vehicles for Service, Spare Parts Catalog,
