

Company Quality Policy

E-Drive technology Ltd company policy is to develop and market hardware and software products of the highest quality, and to provide effective, courteous service to our customers, beyond expectation, and to their complete satisfaction.

EDT performs its operations in accordance with all legal requirements set forth by law, including appropriate business license, book keeping requirements, industry and trade regulations, consumer protection, and all other regulatory requirements.

EDT is committed to maximum customer satisfaction and to an ongoing effort to improve all aspects of its operations.

As such, EDT adopts the ISO Quality Management Standard 9001:2008. The management and employees of EDT undertake to act according to the standards so set forth to achieve maximum customer satisfaction, continual improvement in all activities, and to achieve the objectives set forth in the ISO Quality Management Standard.
